### **Fly Fishing Scholarship Open to Bay Area Youth**

DVFF to Send a 10 to 15 Year Old to a Week at FishCamp™

The Diablo Valley Fly Fishing Club is again seeking applicants for the DVFF Frank Harris Youth Fly Fishing Scholarship. This annual scholarship covers the cost of attendance at The Fly Shop's five-day FishCamp™, which takes place at the shop's well-established and beautiful Antelope Creek facility north of Redding, Calif. The scholarship is open to all youth aged 10-15 residing in the San Francisco Bay Area. The application deadline is April 30, 2021. Additional details and the application can be found at <http://diablovalleyflyfish.org/FishCamp>.

For 2021, the DVFF is offering one scholarship for the week of July 19-23, 2021. The scholarship committee will award the scholarship within one week after of the application deadline. An alternate will also be chosen in case the primary scholarship recipient cannot attend.

The Frank Harris Youth Fly Fishing Scholarship was established during 2019 in memory of member Frank Harris, who was passionate about the value of getting kids outdoors to have fun through learning the skills of fly fishing and gain an appreciation of nature. Frank was one of the founders of the Bay Area Youth Fly Fishers program and instrumental in its success.

### **About the Diablo Valley Fly Fishing Club**

The DVFF is a group of men, women and young people who share a common interest in fly fishing. The DVFF was founded in 1968 to promote fly fishing, believing that fly fishing, both as a science and an art, is one of the most enjoyable and interesting ways to catch fish. A large part of achieving this goal involves teaching and educating people who are genuinely interested in improving their fishing skills. DVFF provides introductory and on-going educational opportunities, fishing outings, and social events. The DVFF also supports conservation through action and donations as well as the Project Healing Waters Fly Fishing program for veterans at the Martinez VA Medical Center.
